

## Color Speckles Quilt

## (Solids only)

This quilt is not only easy to make but is a great way to showcase a selection of lovely fabrics from our Solids range. The striking modern design is composed of four asymmetrical blocks, made in different colourways and contrasted with a warm sand background. If you like, it would be easy to change the background to another Tilda Solid of your choice. For added interest we've made a pieced backing for the quilt and instructions are given for making this if you choose this option.
