

# SOMETHING BLUE

*Special Edition 2026*

Throughout the years I have collected blue and white pottery in all shapes and sizes and just love how the different patterns play off each other when grouped together, creating an energetic and familiar contrast to any room. What fun would it be to make quilts and pillows that create the same effect, or that depict pottery, and this was the inspiration behind Something Blue.

Something Blue has 15 different pattern designs, some repurposed and some new. Most of them are offered in dark-on-light and light-on-dark, to create two colorways.

A fun addition to the main collection and blenders are the border fabrics, which allow you to create more realistic patchwork pottery. There is also a fun design with quilt labels and ornaments for decorations in two colorways.
